BDF FAMILY HEALTH CARD

Connecting Every Family to Healthcare — Wherever They Are

ONE CARD • ONE CONNECTED HEALTHCARE NETWORK • CONTINUOUS PATIENT SUPPORT

OUR PURPOSE

The **BDF Family Health Card** is designed to create a **connected, patient-centric and integrated healthcare ecosystem**. Our effort is to support the patient throughout the health journey — from rural and community-level awareness and screening to specialist consultation, advanced diagnostics, super-speciality treatment, remote monitoring and follow-up.

Our objective is to reduce barriers of distance, connectivity, information and access — and help connect patients with the appropriate healthcare service at the right time.

THE BDF PATIENT HEALTH JOURNEY

01	02	03	04	05	06	07	08
COMMUNITY	**SCREENING**	**CONSULTATION**	**DIAGNOSIS**	**REFERRAL**	**TREATMENT**	**MONITORING**	**FOLLOW-UP**
Awareness & prevention	MAC / health screening	Doctor / teleconsultation	Diagnostics & reports	Specialist / super-specialist	Hospital & care	SOS / remote monitoring	Recovery & continuity

RURAL / COMMUNITY	→	BDF CONNECTIVITY	→	TOP HEALTHCARE PROVIDERS
Local access, screening, support		Doctors • Diagnostics • Hospitals • Technology		Specialists • Super-specialists • Advanced care

“From Rural Community to Top Healthcare Provider — BDF supports the patient's health journey at every step.”
